## OBJECTIVE

Results-driven Software Engineer with 5+ years of experience building full-stack, client-facing applications that deliver measurable business value. Skilled at designing scalable solutions, improving performance, and collaborating within cross-functional teams to achieve ambitious goals. Proven track record of increasing engagement, reducing costs, and optimizing site performance for startups and SMEs. Adept at blending technical expertise with clear communication to bridge the gap between client requirements and engineering execution

## TECHNICAL COMPETENCIES

- Languages & Frameworks: JavaScript, TypeScript, Node.js, React, Next.js, Redux, Redux Toolkit
- UI/UX & Styling: TailwindCSS, Styled Components, ShadCN, Figma, Responsive Design
- Tools & Platforms: Git, Docker, AWS Serverless, Vitest
- Databases & APIs: MongoDB, Postgres, REST API

## WORK EXPERIENCE

### Peppa.io (Techstars '22) - (Present)

- Collaborated with a team of developers to create multi-user dashboards and ecommerce storefronts, enabling businesses to launch stores faster.
- Designed and implemented custom UI features that boosted user engagement and directly contributed to a 9% increase in sales.
- Optimized site performance by applying caching, lazy-loading, and code-splitting techniques, improving load speed by 20%.
- Partnered with product managers and designers to align engineering work with business goals, ensuring timely delivery of new features.

### Combs and Clippers, Nigeria

- Contributed to building the company's first online presence with an interactive website and user dashboard, expanding reach to a broader client base.
- Worked closely with stakeholders to translate business goals into functional requirements, ensuring the final product matched client expectations.
- Applied Next.js caching and server-side rendering to reduce page load times and improve customer experience.
- Collaborated within a small development team, improving coordination and accelerating delivery of project milestones.

### Perfect Scrub Cleaning, Toronto, Canada

- Partnered with client teams to identify operational bottlenecks and provide scalable, developer-led solutions.
- Designed the project's technical architecture and delivered modular React components, ensuring reusability across multiple pages.
- Developed and integrated an employee tracking solution, reducing management overhead and cutting operational costs by 19%.
- Coordinated progress updates with clients at each milestone, resulting in 100% on-time project delivery and client satisfaction.

### Visa Pass NG, Madrid, Spain

- Built a full-stack website with Next.js, delivering a responsive, SEO-optimized platform that boosted client inquiries by 50% in the first month

- Designed clear navigation and interactive forms, improving form completion rates by 35% and reducing user drop-offs.
- Optimized performance with SSR, caching, and image optimization, achieving a 95+ Lighthouse score across devices.
- Implemented SEO best practices (structured metadata, sitemap, keyword optimization), for securing first-page in Google ranking.

## EDUCATION & CERTIFICATION

- **Zero to Mastery Academy** – Full-Stack Development
- **Scrimba** – Frontend Career Path
- **Boot.dev** – Backend Development (in progress, expected Sep 2025)
- **Oracle Certified Associate (OCA)**, Java SE 8 Programmer
- **Responsive Web Design Certification**, FreeCodeCamp
- **C2 Spanish Language Diploma**, Cervantes Institute

## ADDITIONAL INFORMATION

- Skilled in graphics editing using Photoshop
- Fluent in English and Spanish
